

**Development of Psychoanalysis: Freud I**  
**Nancy Goodman, Ph.D.**  
[nrgoodmanphd@gmail.com](mailto:nrgoodmanphd@gmail.com)  
**301.951.3440**

**Syllabus**

**Learning Objectives:**

At the end of this course, candidates will be able to:

1. Explain three basic principles of Freud's theory of the mind
2. Discuss Freud's theory of psychopathology as applied to a clinical case
3. List five core principles of Freud's approach to psychoanalytic treatment and demonstrate how these core principles are used by analyzing clinical case material

**Readings:**

Class 1 *Studies on Hysteria* , Chaps. 1 and 4, S.E. 2; "The Neuro-Psychoses of Defense" and "The Aetiology of Hysteria," S.E. 3.

Class 2 *The Interpretation of Dreams*, Chap. 7, S.E. 5.

Class 3 *Three Essays on the Theory of Sexuality* , S.E. 7.

Class 4 "Formulations on the Two Principles of Mental Functioning," S.E. 12; "Instincts and Their Vicissitudes," "Repression," "The Unconscious," all in S.E. 14.

Class 5 "On Narcissism: An Introduction" and "Mourning and Melancholia," in S.E. 14; and "A Child Is Being Beaten," S.E. 19.

Class 6 *Papers on Technique* ( "The Handling of Dream Interpretation in Psychoanalysis," "Recommendations to Physicians Practicing Psychoanalysis," "On Beginning the Treatment," "The Dynamics of the Transference," "Observations on Transference Love," and "Remembering, Repeating and Working Through") in S.E. 12.
